

Information about particular threats connected with using by the Clients of services provided by X-Trade Brokers Dom Maklerski S.A. in electronic form and functions and purpose of software and/or data implemented by X-Trade Brokers Dom Maklerski S.A. in IT system and not being a part of services.

X-Trade Brokers Dom Maklerski S.A. ("**XTB**"), acting on the basis of art. 6 point 1) of the act dated July 18th, 2002 on providing services by electronic means ("**Act**"), hereby informs about particular threats connected with using of services provided by electronic means.

Basic threat for each user of the Internet, including persons who are using services provided by electronic means, is possibility of infecting the electronic system by software in particular viruses, bugs and Trojans created mainly to cause damages. Irrespective of the safety methods applied by XTB, every user of the Internet must take care of the safety of his own computer. User should use the antivirus software with the up-to-date base of viruses and personal firewall as such elements secure computers from the undesirable actions from the Internet network. The correct settings of the web browser has significance impact on security. Consistent applying by the user of basic security methods enables to avoid potential threats related with use of the Internet. We recommend using commercial software of reputable companies which assure quick reaction to new threats and offer the technical support, if necessary. If you do not decide to use commercial software, we suggest to use available free antivirus software available in the Internet. After ensuring that computer does not store any dangerous content, access password to the service shall be changed.

Our suggestions shall be treated only as general, always binding, basic recommendations of security methods which do not exhaust this extensive matter.

XTB acting on the basis of art. 6 point 2) of the Act hereby informs, that the function and purpose of software or data implemented in IT system by XTB and not being a part of services, are specified in Privacy Policy.
